

Preparing India's Leaders Of Tomorrow

In January 2018, Dr. Sonny Ramaswamy, a graduate of St. Joseph's Indian High School, who was the Director of the National Institute of Food & Agriculture, appointed by President Obama, visited St. Teresa's and conducted a seminar on Leadership in the 21st century. In March, Mrs. Jonaki Thomas and Srimahalakshmi Nagasundaram, two brilliant professionals, conducted Aptitude testing and counseling for the students of St. Teresa's. A special partnership with the University of Florida brought Andrew E. Toelle who conducted brilliant Teamwork & Leadership seminars for students and faculty. Another first was the presentation on the Challenges of Global Health by Dr. Rahul Jindal.

The motto of 4-H is **"To Make the Best Better."** Andrew Toelle, Extension Agent, University of Florida, provided scintillating presentations on Teamwork and Leadership for students and staff at St. Teresa's, St. Germain High School, St. Joseph's, SDA High School, and the Archdiocese. His presentations generated tremendous excitement in the students and a demand for more. 4-H empowers young people with the skills to lead for a lifetime. It focuses on experiential learning that includes a mentor, a hands-on project, and a meaningful leadership opportunity. The 4-H Pledge signifies its true meaning. "I pledge my Head to clearer thinking, my Heart to greater loyalty, my Hands to larger service, and my Health to better living, for my Club, my Community, my Country, and my World." We hope to continue this wonderful partnership with the University of Florida for future visits and expand the program so these students will have the salutary benefits of 4-H and its programs.

Dr. Rahul M. Jindal, a world-renowned transplant surgeon and a leading proponent of Global Health, spent a morning at St. Teresa's and conducted a seminar for the 4-H Club. The challenges of delivering quality medical services in a timely fashion are distinct issues in India and other developing countries. Dr. Jindal, who was the Fulbright-Nehru Distinguished Chair appointee in 2017/2018, gave a fact-filled and inspirational presentation. The session extended beyond its schedule due to the insightful questions from the students. Dr. Jindal is also a major donor to PILOT and its scholarship program. Below are pictures of some of our scholarship recipients at St. Mary's High School and St. Teresa's. Our goal is to continue to expand on the amount and number of scholarships awarded to deserving students. PILOT now has a Debate Contest, Essay Contest, Elocution Contest, and Community Service Project. The teaching staff is a great asset in the implementation of these events.

This picture shows Mrs. Elizabeth Perumal and the William and Aimee McHenry Scholarship recipients at the Seventh Day Adventist School in Bangalore. These scholarships are sustained by Winnetta Martin, their daughter, in recognition of their lifetime of service in India. It is their belief that Talent is Universal, but Opportunity is not. To continue in the spirit of her parents, the McHenry Scholarships will be expanded to schools in Newasa and Laslagaon, Maharashtra in 2019.

St. Teresa's held its first annual Debate on the subject of Social Media. In addition, more than 350 students entered the Essay Contest. The subject was, 'Discrimination I Experience as a Woman and How to Change it.' Selecting the winner was a difficult but unanimous choice, and she is as modest as she is bright. We look forward to their continued success. To fully recognize PILOT programs requires identifying its many financial supporters and volunteers. Our thanks first to Fr. John Rose without whose vision, dedication and support PILOT would not have been possible. Our thanks to the generous and loyal benefactors; Dr. Rahul M. Jindal, Dr. Khurram Ameen, Mr. Ibrahim Akram, Mr. Anil Rego, Mr. Gul Iqbal, Dr. Tahir Sait, Mrs. Winnetta Martin, Mr. Vijay Pandit, Mrs. Amy Donahue, and Mrs. Theodora Ezekwerre. Skill enhancement seminars were presented by three dedicated volunteers. Ms. Ayeesha Sumera, who holds a Master's degree from the University of Nottingham, U.K., gave three presentations focusing on communication and social skills necessary for women in the Workplace. Mr. C. N. Abraham spoke on the importance of Reading, the first in the three R's. An offshoot of this presentation was a book drive for the school library which collected more than 1500 books. Mr. Ibrahim Akram provided insights into starting a business and focusing on matters of finance and labor.

Our volunteers are many, but four are indispensable for their generous contributions of time, talent and money -- Mr. C. N. Abraham, Ms. Flora Patric, Miss Ayeesha Sumera and Mr. Ibrahim Akram. PILOT is a government of India approved charitable organization and all donations can receive tax benefits as allowed under the law. To date, donations are placed in fixed deposits and expenses are handled through volunteer donations and interest earned. PILOT makes no distinction on the basis of religion or caste. It emphasizes the need to develop every child to her full potential. PILOT collects laptops, tablets, books, and other educational material for distribution to students. Please join us in increasing our corpus, our volunteers, and the universe of PILOT's influence.
