

Preparing India's Leaders Of Tomorrow

The year 2020 brought Covid-19 and a life of uncertainty for the whole world. With a total shutdown, student life was in a twilight zone. Virtual learning became the norm and showed the negative impact on students from financially challenged backgrounds. Where laptops and internet were unavailable, there was no chance to attend classes.

Despite these challenges, Principal Flora Patric of St. Teresa's College for Girls in Robertsonpet continued to provide classes working tirelessly with the parents and students. The travel ban prevented Mr. Farook Sait and the Trustees' trip for the scholarship Awards program in September, so it was conducted via Zoom.

The '2020 PILOT Awards' were offered to students who finished 1st, 2nd, and 3rd in the final examinations. The Awards program was conducted via Zoom on September 9, 2020. The students who performed with such distinction in the 1st PU exams are listed by subject.
